

Alpine Water System Shaping Up!

SHEPARD, RUSHING WIN

School board election Friday kept incumbents Phyllis Shepard and Fred Rushing in with 99 and 107 votes respectively. Rudy Oeser, the other contender pulled 74.

The recent action by Alpine's Kiwanis club toward the early establishment of a water supply for this community, and the possible similar action of the chamber of commerce and other civic bodies, may bring this into being earlier than many realize.

ALPINE WATER SYSTEM (FROM PAGE 1)

The Sun on Jan. 15, 1953, ran a story on it, with an editorial on Feb. 26th, which elicited comment from an evidently high official in the form of a letter to this office: 'Your editorial of Feb. 26 about development of water resources is an example of outstanding and progressive thinking on the subject, not only in terms of your local community problems but also for the entire Pacific Southwest.

'Many of our citizens are not fully aware of the fact that every well drilled to tap underground water supplies depletex those sources of supply and lowers the depth to water table where they may be reached for pumping to the surface. So critical did this situation become in the Owens Valley a few years ago that, in the town of Independence, where a well dug 10 feet deep had supplied water to local residents, after a period of pumping by some 400 deep wells the water table had been so lowered and underground water resources so depleted in 1929, that the well at Independence had to be dug 150 feet deeper to reach water at all. Not until water was brought into Owens Valley again from other sources in the Mono basis was this lowering of its underground water table corrected.

'Alpine, Fallbrook, and other localities in S.D. county are today facing a similar situation of depletion, both surface and underground, that Owens valley was subjected to a few years ago.

He concluded by giving state, city and federal offices where more data on this urgency might be had, which The Sun has turned over to the chamber of commerce, hoping that it will take early action.

But the main thing is to get water for Alpine!

P.O. CLOSED MAY 30

Next Saturday is Memorial Day, so do not forget that this sacred national holiday calls for business, banks and the postoffice to be closed Home is the best place to observe this sober memorial of America's brave dead, also those of our own families.

BUTANE COST JUMPS

The price of lpg- low pressure gas-known as butane or propane, according to its pressure and freezing point, which many back country folk use for cooking and heating, and in trailers, has gone up two cents a gallon, from about 18 to 20 cents, the first raise in several years. Like distillate, it went up because of generally higher costs in the petroleum industry, to say nothing of many taxes.
