EDITORIAL.

SEVEN YEARS OF SERVICE TO ALPINE

The big 60-page Christmas issue of the Sun, in red and green, with many illustrations, closed the seventh year of publication.

It has been seven seasons of fun and hard work, investment, improvement, and little profit-like most small newspapers the nation over. But we have enjoyed the job. Moreover, the readers have approved by subscribing and buying copies over the counter in Alpine

shops-- nearly 200 are sold each issue!

A few objectives have been achieved. Two years the Sun worked to get house numbers and street name posts. It worked for the sewer, but desired water first. Your editor was founder of the chamber of commerce, now inactive. Much has been done to get better sheriff service here; also highway patrolmen.

Zoning and water have been worked on steadily. It was the Sun that alerted residents about a trailer park going in on Victoria Dr., so they went after interim zoning. One winter a drive was promoted to have a housewarming for the old firehouse, and money was raised to buy uniforms for the volunteers. Continuous work for better phone and light service has been carried on. Without criticism, the Sun has helped to get better roads and appropriations for the area.

Considerable time was spent on conferences with banks regarding one for Alpine, but none will come till water is in. We worked for the original Youth Center and the horse shows, and have helped bring many families into the area. Daily the Sun performs the duty of a chamber of commerce and information bureau, for which we are not subsidized. We give 14 county library subscriptions.

The Sun is a local industry. We live and work here; are raising a family, spend all we can in Alpine, pay taxes. And we do all the work ourselves right on our ranch, do not take money out of town. Our investment in the Sun alone is considerable.

Church Has Birthday

Tonight members of Community Church will meet in Fuller Hall to celebrate its 65th anniversary. Feb. 24, 1894, a much smaller group met and made plans to organize a church. First services were held in the old school house, then the Woman's Club until 1932 when Fuller Hall was built. Services were conducted there until the present church was finished in 1953. Members are proud of the fact that the mortgage was burned last May.

At the family dinner tonight, the Guild will furnish meat and the birthday cake. Each family is asked to bring a vegetable or salad and table service. Those who have been members for 20 years have been asked to sit at the speakers table. Clarence Stearns will be toastmaster, with Rev. Curtis Claire of Lake Murray Manor Cong. Church as speaker.

The Church's one surviving charter member is Percy Foss. Until 1954, the church was a mission of the Congregational Conference and has been self-supporting since that time. Dr. Roger Larson has been pastor since 1948.

RAIN HITS NEW TAVERN RD.
 Heavy showers did considerable damage to the unfinished granite surface of the newly graded Tavern Road this week. In some places deep ruts were cut across, and alongside drainage ditches were made which county roadmen are working on. Oiling will not be started till April.

ENGINEER WEEK FASCINATES

As a feature of National Engineers' Week the public will have a chance to see an actual feat in science at the exposition, which is a part of the big observance. It will be in Electric Building, Balboa Park, Feb. 26, thru Mar. 1. The idea is to interest youth to adopt careers in engineering.

Big feature in S.D. is to be the group of electronic hobbyists known as 'hams', who will talk to other 'hams' throughout the country at similar affairs. Visitors will be invited inside the railing to see how these marvels of communication work. They will also be invited to contact friends in hometowns thousands of miles away.

M.C. Towns, Solar engineer, is lining up a network of 'hams' across the continent so contacts can be made and the public may thrill at talking over electronic engineering features across space. This area has a number of 'Hams' who afford a major contribution to public moral in times of disaster, war, etc. Alpine has several, and many plan to attend this big show.

JOLLY VALENTINE PARTY

More than half the world's supply of nutmeg and other spices are consumed in the United States.

New School Meet Tuesday

Russell Savage, who will be principal of the new El Capitan High school, Lakeside, met with a group of mothers at the Youth Center Friday with Mrs. Charles Bradley as hostess.

Savage gave a complete report concerning the structure of the school, courses to be offered and disciplinary action to be used. He is much in favor of parent get-togethers such as this, encourages more in the future.

He will preside at an orientation meeting with 8th grade Alpine students and their parents Tuesday, Feb. 24th, at the school at 8, when he will be prepared to answer and give students an idea what to expect in their Freshman year at El Capitan High.

POWER FIRM SHOWS GROWTH
 The Dec. 31st quarterly report of S.D. Gas & Electric Co., well reflects the terrific expansion going on in this area for the total power customers served on that date was 293,923. That is a jump of around 80,000 in the decade, with gas customer increase nearly as much.

Know Your TEACHER

BY MAUDE WHITING

Mrs. Elizabeth Kasper, a native San Diegan, returned to this area last summer with her husband, Charles, and three children, Joe, Mary and Amy. They are living in the Thompson house on Hwy 80.

Mrs. Kasper is not only a 'prunepicker' in the true sense of the word, but has lived for the past two years in Healdsburg, center of the prune country, where they were able to pick and dry their own.

Educated in S.D., Mrs. Kasper attended State College, University of Colorado and U of N.M., where she graduated with a B.A. degree and a general elementary teaching credential. She was married in 1947 to Charles Kasper while they were students at the University of Colorado. Their first child, Joe, was

born just two weeks before her graduation from the University.

Kasper, a Navy bomber pilot in WW2, is an accountant, employed as office manager as office manager at Sharp Memorial Hospital. He also has a B.A. degree and a junior high credential.

In her third year of teaching, Mrs. Kasper is one of our fourth grade teachers, with her own son as a pupil.

With art as her major in college, she naturally leans to art in her spare time. On their living room wall hangs a colorful portrait she painted of her family.

After being away from S.D. county for several years, Mrs. Kasper is glad to be back, 'it looks like we are here to stay', she says.

SMALL TALK

By Cynthia Irvine
Age 10, 5th Grade

Monday we all went over to Stiehm's to see their new baby French poodle. We took turns holding him. He is the cutest little brown pup I have ever seen. They still haven't named him but thought Coco would be cute. It means Darling in French. While we were there Mrs. Stiehm told us she was going to give away all of their other dogs. They have a registered airdale, 1½ years old that they want to give away to a good home. If you want her Call HI5-3894.

Sharon Sullivan has a new baby brother. He was born in Grossmont Hospital last week. His name is Rodney Jefferson. He weighed 8½ pounds and now Sharon told me that he eats like a little pig.

Joann Boswell and her grandma had to go to a funeral in San Bernardino Friday. It was her great uncle and he died of a heart attack.

Timmy Rowan had his 9th birthday party last Saturday. The twins went and he told them he had to have his big dog put to sleep. He just got too old to have around.

Dink and Ginney Frey might get two Shetland ponies. They told me about it last week and said as soon as their daddy put up a fence they would get them. Boy are they going to be

happy when they arrive.

The Payne kids have a new baby donkey. They named him Fuzzy and he likes to be loved. Paula Anderson went over to see him and would like to have one like him for a pet. So would I.

Joann Boswell's little sister Debbie got to fly to Texas with her mother and dad last week. They are going to drive back a new pickup truck. Joann didn't go on account of school.

Linda Wake has one of Bit's pups. They named him Sugar Foot. Bits is a pure Australian Shepherd and Linda was glad to get the puppy. And the other night their calf Julie had her baby and in the morning when they went out to look it was dead. They didn't know how it happened but it probably got cold.

Paula Anderson told me some good news. She thinks she might get to go to Poland with her brother and mother this summer to visit her mother's two brothers. Her mother has never seen them. They would fly over and come back by boat.

We took a few days vacation last week-end. We all went to Hot Mineral near Niland and went swimming. Then we drove by the Saltan Sea and then up to Riverside and down to the beaches. We stayed with Mama's brother in Torrance. On the way home we stopped by Torrey Pines to see the glider meet. The youngest glider pilot was there and daddy talked to his parents. We saw lots of gliders taking off and landing. It was interesting.

Joyce and April Erickson have been in Grossmont Hospital this week with a bad kidney. They are doing fine and we all hope they will come home soon. Little Dukie Hem has been there too with a skin rash. He is in the same room as April and Joyce.

Girl Scouts Leading

Mrs. Evelyn Walker, Intermediate Girl Scout leader, sends this message to Alpine and neighboring communities: 'The success of our cookie sale this year can be ascribed to the heart warming way you have opened your doors to our girls. You have been most generous in buying time and time again, and several boxes at a time, for our worthwhile cause of building the future success of our overnight cottages, camps; new sites to induce more girls into this clean, fresh way of life, to be a better person and an asset to her country'.

Several days are left to fulfill the dream of being the troop to sell the most cookies. At this writing Alpine was far ahead of sister scouts in the district. Each girl who sells 36 boxes receives a V.I.P. (very Industrious Person) car award from the council, and to the top girl who sells the greatest number over 100 boxes, goes a gold cookie charm.

The girls are all working hard and it is not only on sunny days, they have been out in the worst downpours. Each girl is trying to reach her goal of 108 boxes and outstanding girl to date has sold six cartons.

'For one day sales, we received a receipt from our neighborhood cookie chairman, Mrs. Mary R ssell, for \$129. and for 3 week days we collected \$110', she adds.

'We believe that we have a good foundation laid for our 'House' that Scout Cookies are building, and it could not have been done without your help', Mrs. Walker concludes.

When Alpine gets water it will get a bank, loans, escrow service, and a rash of new building activity.

WATER DISTRICT AHEAD

Yesterday the Problems Committee, S.D. Water Authority, was to pass on the revised boundaries of Alpine's proposed water district. Being past presstime, results were not known. That evening the proposition was to be handled by the board, and if given the green light, would go at once to the L.A. Metropolitan District for informal approval and return. At any rate the wheels are grinding!

WATER UP, BUT NOT OVER

The copious rains of the past week have soaked in sufficiently to allow the last downpour to yield some runoff, reports the S.D. water office. El Capitan, with 197' height, has risen to 131.2, and has gained some runoff, but what is needed now, say officials, is some fast hard rains that will not just soak into the ground.

Loveland, near Alpine, Wednesday was rising at a rate of 1" per hour showing a good runoff as the snows have melted. Sweetwater River is again running a small torrent. Also private dams around Alpine are rising from their parched summer winter dry spell. Cuyamaca Lake, which supplies Helix Irrigation district, has been upped by nearly 11 million gallons from the runoff.

PTA DRAWS A FULL HOUSE

A jammed auditorium enjoyed the childrens' entertainment program staged at the school by the PTA last Tuesday. A nominating committee was named for election of new officers; Mmes Jay Schuster, Marie Kramer, Leata Judd and Norma Sullivan.

John R. Reynolds, board chairman, and Supt. Clyde Gilley spoke on the school bond voting slated for Apr. 14, pointing out the urgency of the measure.

Dear Lord from Your Judgement
 Seat on High,
 Look down on a Scouter such
 as I,
 Search me thru and find me
 whole,
 Then help me Lord to reach
 my goal.
 Help me Lord to work for Thee,
 Guard my homeland - keep it
 free.
 Help me to work with others
 and be kind,
 Helpful with my hands and
 mind.
 Keep me Lord, both well and
 strong,
 To help our growing boys along.
 Control my thoughts, keep
 them right,
 Sound, clean weapons for
 life's fight.
 Protect my morals, keep
 them high,
 Grant this to a Scouter
 such as I.
