While returning home from a shopping trip in El Cajon, my eye caught a big black headline glaring at me from Besides sharing these activi-ties with her husband, Mrs. n't quite make out the words so I pulled into the curb and got out of the car to take a better look. that headline proclaimed the world shattering news -A.F.L. and N.F.L. merges. I couldn't care less if they merged with the "Shawnee Shipokes." I couldn't find anything in the paper about 109 fine young Americans who lost their lives last week fighting a warthat they cannot win, to the glory of L. B. J. and the ego of Mr. Mcnamara. The infallible Mr. Mac has been so consistently wrong from the time of the Bay of Pigs fiasco up to the present time, that it's downright criminal.

How long do you suppose anyone of us would keep our jobs if we had even pulled half as many "boners" as this fair haired boy?

The Communists have no need to worry about failure in their avowed intentions of world domination, when they have two enemies like L.B.J. and Mr. Macnamara - who needs friends?

"Meanwhile back at the ranch!" The Russians are enjoying their "dove of peace" role, publicly denouncing us as war mongers and aggressors and privately hoping we will keep on fighting in Viet Nam so eventually both our manpower and financial resources will be exhausted.

We have been brain washed with the idea of containing Chinese aggression. This idea would really be laughable if it wasn't so tragic. Have you ever tried to contain an elephant with a hair net? And, of course all this time the Jackall, Castro, sits on our doorstep, a definite threat to our cities and it wouldn't sur-prise me at all if he jumped on the gravy train and applied for foreign aid.
All this mess in Viet Nam

isn't worth the life of one American boy. Are we really a nation of sheep? I would like to suggest that people write to their representatives in Washington and let's get this thing over one way or an-

other. I would like to end my letter with a prayer: OH GOD LET THERE BE PEACE IN THE WORLD, AND LET IT BEGIN WITH ME.

WE SALUTE THE KITTY HAWK, the aircraft carrier that came home to San Diego this week after an eight month deployment in Viet Nam. She was happily greeted by thousands of friends and families of the crew. How about sending a HEARTGRAM to a serviceman for Father's Day. The children would enjoy this way of telling Daddy how much he is loved and missed. Father's Day falls a day earlier in the Far East so you should mail it as quickly as possible. The forms for the Heartgram are printed in the Evening Tribune every day. So far it has been an-nounced that over five thousand Heartgrams have been transmitted since the program started March 14th.

Have you sent your serviceman a box recently? It means so much and it takes so little

She mentioned that the fruits and flowers are nicer than she had ever imagined but that the humid weather was a disappointment. As always, box lest rome described in the second of the secon a disappointment. As always, her last remark was "it was a lovely trip but I'm sure glad to be home."... The registration for the swim classes was large enough to make four classes of ten children each. The pool at Spur Valley Ranch has been generously offered by the new owners, Mr. and Mrs. Ray Harvey. The tentative date of July 5th will depend on the close of escrow. Mrs. Doris Green will be the swim instructor, assisted by Mrs. Marion Crawford.

IRS EXPLAINS

LOS ANGELES - Generally speaking, selection of returns for audits is based on carefully developed criteria designed to identify those returns where the greatest chance of error exists. In addition, some returns are selected at random so that no class of returns is assured of exemption from audit.

On most of the returns, IRS wants to make sure that the taxpayer actually made the contributions he claims, or paid the doctor's bills, or suffered the casualty loss he said he did. Good records - cancelled checks, paid bills and receipts - will usually lead to the acceptance of the return as filed.

The underlying objective of the entire audit program is to bolster the voluntary compli-ance tax system. Audits and other enforcement actions help assure all taxpayers that the foolish few who flaunt the tax laws are caught and that each taxpayer pays just his fair share of taxes — no more and no less.

To the Editor

I invite all your readers, all Californians, wherever they are, to contribute a rock to the building of the giant embankment of Oroville Dam, key unit of the State Water Project.

I suggest they select a small, smooth rock of any special significance, perhaps a souvenir that has survived long years, a rock brought home from a far shore, or one from the back yard, any rock of meaning to the individual.

They should make a record't to accompany their rock and to identify it with their name and address and a description of the origin of the rock.

This record of the contribu-tion will be sealed in a vault in the rock of the underground powerplant and kept in safety through the centuries "to a day when archaeologists will be employed to say who we were, we Californians who built the great dam."

Your readers should take their rocks to Oroville Dam June 25, when a new Con-

GOD'S PRESENCE

Perhaps you climb a mountain high, Or seek the desert where you can Feel that your Maker's very nigh, Here with the wonders made for man.

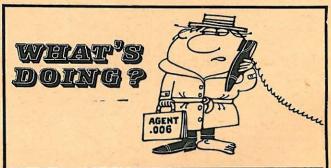

No doubt you wish you could remain, Wish you could always feel this way, You're loath to go from God's domain, He seems so close to you this day.

Your God, whose spirit here you feel, For just a moment or a day, His presence to you would reveal, Would be with you in every way,

Don't think that you must leave God here, As you go on your homeward way, He'll be your guest, be always near, He's only just a prayer away.

Oh dearest friend, this life we live, Is much too short to search in vain; God will His spirit freely give, You'll never need to search again.

Rev. J.L. Jessup 614 Snowden Pl. El Cajon, Calif.

Phil Fidler, El Cajon resident and area supply man is shown helping P. (Smitty) Smith unload some of the supplies for the day's work.

While most of our thriving city of El Cajon is sleeping the Pacific Telephone supply department is bustling with a hum of activity.

This activity consists of rolling trucks, the co-ordination of loading and unloading of supplies and telephones, the stocking and storage of these supplies, and the organization and preparation of all necessary papers to expedite and guarantee efficient ordering and handling of this

This makes it possible to have the telephone equipment ready for use the same day it is received at our supply storage areas. Thus, cutting the cost of storage and giving you, our subscriber, immediate service with a maximum of variety.

Operations like this allows your telephone company to pass on the savings to you. Through the efficiency and resourcefulness of your Pacific Telephone Company, you now receive the very best service at the lowest cost in history.

If there's a bride-to-be in your family this month, you're probably discovering what a big help your telephone can be-keeping friends and relatives informed as plans progress ... calling the church, florist, photographer, beauty shop . . . checking on the wedding gown and bridesmaids dresses. And all this help costs you very little, because phone rates in California are among the lowest in the nation.
